

HRP818

Dual-Channel Dash Camera

The HRP818 is a compact video telematics device that makes it easy to remotely manage your en-route fleets. It adds visibility to your fleet, along with powerful LTE connectivity and GNSS capability, and can record and store video footage and images on the device. You can watch live video, play back historical footage, and retrieve critical evidence when needed, from anywhere, at any time. By integrating video technologies it helps ensure the authenticity, timeliness and reliability of fleet management, making it an appropriate choice for light vehicles.

VIDEO SURVEILLANCE

Powerful LTE connectivity enables the live monitoring of the vehicle's interior and exterior via an online platform.

DUAL-CHANNEL RECORDING

Simultaneously monitor the road ahead and what happens in the cab in real-time through the two on-device lenses with no peripheral camera needed.

BUILT-IN GPS LOGGER

The video recorder can be used as a tracker to locate the vehicle and stamp data such as vehicle speed, coordinates, time, and more on the images or video clip.

PANIC BUTTON

The on-device SOS button allows the driver to call dispatch or summon emergency services immediately.
