## Introducing our comprehensive Fleet Risk Management Solutions

Freight services is an important part of the global economy, enabling the transportation of goods and materials across various distances. Whether it's moving products from manufacturers to retailers or facilitating international trade, freight services play a vital role in supply chains worldwide. Hawk Freight Services specialises in securing all commodities being transported, from collection point to drop off location, with our electronic platform that does not only secure your commodity, but our clients know where their commodity is from collection to drop off.

Whether you need freight forwarding or a small operator looking for express delivery solutions, Hawk Freight Services offer fast, affordable and flexible courier services tailored to your specific needs in South Africa. Hawk Freight Services success in the transport world can only be awarded to the Hawk Risk Protection (PTY) Ltd, which is a affiliated company to Hawk Freight Services, specialising in tracking and national recovery services.

## Our Freight Services Include

### Door to Door

We collect freight from the sender and delivered to the recipient's door. The shipment is collected from the sender and taken directly to the recipient without any delays.

### Confidential Documents

Freight services that offer confidential documentation collection and delivery include couriers, logistics companies, and express services. These services can help ensure that sensitive documents are delivered securely and on time. Important papers are placed by the client in a tamper-proof bag to ensure that they are not mishandled. Tamper-proof bags are sealed and need to be torn open, to ensure and verify that no one tampered with the shipment during transport.

### Overnight Delivery Services

This is the quickest delivery service offered by Hawk Freight Services which guarantee customers will receive their order on the next business day. This service done via road freight or air freight to ensure that the deliveries are done as required.

### House Contents Services

Hawk Freight Services are fully equipped to handle your move out of South Africa. Whether you're relocating your entire household or just sending a few personal items.

### Armed Freight Services

Hawk Freight Services provides armed escorted freight surveillance with professional security for your cargo either as an integrated package or a stand-alone service. Hawk Freight Services affiliated security company, Hawk Risk Protection (PTY) Ltd, provides armoured and armed vehicles for security and risk requirements. Hawk CCC (Central Command Centre) provides 24/7 Security Monitoring & National Recovery Teams to be deployed, when needed.

# HAWK RISK PROTECTION

## Container Locks & Tracking Services

Our Container-in-transit global tracking devices are powered by a leading and established South African based technology company and uses the latest technology in GPS tracking to ensure the safety of your cargo or assets. Whether your assets are moving, or static and should not be moving, our container locks with global tracking devices, allows you to keep your assets secure and always keep track of them.

The container locks are perfect for cross border tracking and gives you 24-hour visibility on fleet management. Our container locks fitted with a five-cylinder pin code locks that can be locked from dispatched to delivery locations, without that anyone has a key to open the container lock during the transport process. The container lock pin code provided only once the fleet arrived at the delivery location and the responsible person receiving the container confirmed & verified with Hawk CCC (Central Command Centre) that fleet is at the delivery location.

Stats SA has found that 287,000 individuals experienced hijacking in the past five years. Hijacking has increased by 2.5% from the previous year. According to the South African Police Services (SAPS), for the recent quarter (Q1 2024/25), two provinces experienced a notable year-on-year increase in hijackings.

Carjackings are most prevalent in South Africa's most populous regions, such as Gauteng, KwaZulu Natal, and the Western Cape. Over the six months in 2024, Gauteng saw 5,163 hijackings, representing 48% of all carjackings. The Western Cape experienced 1,613 carjackings, and Kwa-Zulu Natal saw 1,512.

This is why Hawk Freight Services are not just a transport and logistics service, but a transport and logistics service to our clients with a proactive security and risk benefit.
